

CLINICAL HYPNOSIS WITH RAPID TRAUMA RESOLUTION®

Clinical Hypnosis with Rapid Trauma Resolution® is an innovative method that painlessly eliminates the negative influences from traumatic events. This integrative approach completely resolves the psychological and physiological effects of trauma.

This cutting-edge approach to healing and positive change utilizes precise multilevel hypnotic communication. Unlike other approaches to trauma treatment which require the client to experience painful emotions while reliving the trauma, Clinical Hypnosis with Rapid Trauma Resolution® clears the effects of trauma gently and painlessly.

The exact traumatic event needing resolution is brought to mind even if it has been repressed or forgotten. The client realizes fully and through every facet of their mind and body that these experiences are finished and gone. Negative emotions are replaced with energy and peace and self-destructive behavioral patterns disappear.

FACILITATE HEALING AND TRANSFORMATION

Emotional problems, destructive behaviors and relationship difficulties can seem impossible to change when fueled by traumatic past events. Unresolved emotional trauma can even increase vulnerability to medical problems. Attempting to bring about enduring change without eliminating the influence of these past events would be like trying to repair the structure of a building by applying a coat of paint.

Clinical Hypnosis with Rapid Trauma Resolution® facilitates transformation that effects emotions, beliefs, behaviors and even perceived identity. Unconscious conflicts blocking desired change are brought to light and resolved. The mind is cleared, organized and optimized. Negative habits and painful emotions are replaced by positive feelings and actions. Blocked energy is released. Healing takes place. Desired change is automatic and lasting.

ENGAGE IN FAST-PACED EXPERIENTIAL LEARNING

You will remain interested and involved during this fast-paced and exciting training due to high energy instruction, fascinating learning materials, and a varied schedule. You will watch live demonstrations and films of dramatic therapeutic breakthroughs. You will participate in exciting discussions and become engrossed in guided practice structured to maximize your integration of these new and powerful skills. Expert coaching and immediate feedback are also provided as you build new therapeutic skills. You will be immersed in the experience of both learning and doing while creating connections with other practitioners.

ENHANCE YOUR CLINICAL PRACTICE

When individuals are suddenly free from emotional pain and destructive behavioral patterns, they are eager to refer friends, co-workers and family members. As a clinical hypnotherapist many of your clients will also be physician-referred therefore you will have the ability to help individuals dealing with medical challenges to utilize the mind-body connection to reduce their pain and improve their health.

Dr. Jon Connelly is the founder and developer of Rapid Resolution Therapy, a revolutionary psychotherapeutic approach to emotional and behavioral difficulties. He is the author of *Life Changing Conversations – The Power of Transformational Communication*,

which demonstrates that dramatic therapeutic breakthroughs can be facilitated in a single psychotherapy session. Dr. Connelly is the founder of The Institute for Survivors of Sexual Violence, a non-profit (501C3) organization providing mental health professionals with state-of-the-art training in advanced clinical methods of eliminating the negative influence of trauma. He has over 30 years of experience working with individuals and training professionals as well as board certification in psychotherapy, sex therapy, hypnotherapy, behavioral medicine, clinical social work and chemical dependency counseling. Dr. Connelly directs the Trauma Resolution Program at Palm Partners Residential Treatment facility for individuals in recovery from alcohol and drug dependency. He was appointed to the Clinical Faculty for the social work program at the State University of New York at Stony Brook and hosted a popular radio talk show on mental health issues. Dr. Connelly has also conducted seminars in hospitals throughout the country on advanced methods of stress management and mind-body healing. Thousands of mental health professionals have trained with him and consider this training to be the most valuable educational experience of their entire professional career. Jon Connelly is licensed as a clinical social work practitioner and has a doctorate in clinical pastoral counseling.
